<dstoneliv@livingstonalaska.com>

Gentlemen:

Please make sure the sure that the section of the Seward Hwy between Potter Marsh and Portage be included n the STIP for the Seward Hwy modeling and planning comment period intended to expire 12/31. Please ask that a possible revision include a Seward Highway Design incorporating the four lane divided improvements or whatever may be construed to enhance the safety of this portion of the road that has become increasingly a killer and probably the most deadly section of highway in Alaska.

Cordially

Jim Henderson
